## From the Principal's Desk...

Shree Niketan Group of Schools firmly believe that education is the key to unlocking the potential within every student. Our dedicated team of educators is committed to provide an enriching and nurturing environment that fosters academic excellence, character development, and holistic growth. As we navigate the challenges and opportunities that lie ahead, we remain steadfast in our commitment to providing the highest quality education to our students. We will continue to prioritize safety, embrace innovation, and strive for excellence in all aspects of our school community.

I encourage parents, and students to actively engage with our school and, participate in various activities, and maintain open lines of communication. Your involvement is crucial to the success of our educational journey, and your valuable input helps shape the experiences of our students.

Thanks and regards,  
Dr Stella Irin Kumari  
Principal

## Star Readers Award

**'Reading is the gateway for children that makes all other learning possible.'**

Learning is beyond academics. Students have to utilise their library effectively to make them realise that books have the ability to train their imagination to think BIG. Reading will enrich the writing and communication skills too. Our school tracks the student's involvement in reading outside the academics and the deserving student will be awarded with the Star Reader Badge.

## Zero-Wastage Award

A zero-waste approach entails responsible production, consumption and disposal of products in a closed, circular system. This means that resources are reused or recovered as much as possible and that we minimize the pollution to air, land or water. The United Nations General Assembly has taken this resolution to achieve sustainable development. Achieving zero waste requires action at all levels. We, as concerned citizens, shall contribute our best from our end.

## Lost and Found

**'We will learn the true value of anything only when it is lost.'**

Students should learn the responsibility to take care of things in their possession. They should also know that something that doesn't belong to them must reach its way to the owner. School has the 'Lost & Found' box in the reception so that the students whoever had lost or left behind could tell the identification and collect it.

All these values are inculcated in the minds of the young students and encouraged to adapt them inside the school which will in-turn reflect in the society. Every child needs motivation in some form and there won't be a child that hates appreciation. During general assembly, the winners are being awarded with the trophy or badge to motivate other students in the school.

## TRAVELLING

*N. Tamilselvan F/O  
N.T. Yazhini III A*

Travel is the act of moving from one location to another, often for leisure, business, or exploration purposes. It allows individuals to experience new cultures, cuisines, and environments, broadening their horizons. Travel can be domestic (within one's own country) or international (crossing international borders). Popular modes of travel include air travel, road trips, train journeys, and cruises. Travelers often plan their trips, considering factors like destination, accommodation, transportation, and activities. Travel can be a source of relaxation, adventure, education, and personal growth. Sustainable travel practices aim to minimize the environmental impact of travel and preserve natural and cultural resources.

## LIFE LONG TRUE COMPANION

*Dr. T. M. Vidhya  
M/O M. Roopesh  
UKG B*

A Child is a little genuine companion. We have the liberty to share all our secrets with the Little One and confidentiality proven. This little companion takes part in our joys as well as sorrows. When we go out for a walk this little companion gives us immense pleasure which is irreplaceable. Betrayal will never be seen with this little one. The friendship/bond with this innocent friend covers Share, Care, Protection in a wide sense. Finally, This little friend is the only one who travels with us from their birth till our death.

## IMPORTANCE OF WOMEN EDUCATION

*S. Poornima M/O D. Janani XI - J*

Now a days women are getting equal rights as men. But still some women are home makers even having lots of talents in them I choose this topic because in some villages like Villupuram district women are arrested in house . They won't allow to work Outside . This world is for men ,women and animals too . But in such district men power is higher and were doing many malpractice If a daughter or sister go out side to work and the brothers and son will be disciplined .The men will be proper human Only if the women comes out and they will Improve their character As a woman I also need women In many fields to solve my problem I consulted women docter for my body issues I got 3 wheeler motor cycle from women collector ( mageswari ias )for my handicapped sister she is very kind Women only knows the pain of women So women must be educated Thank you

## PARENTING IDEAS EARNED FROM PARENTING JESSI.

*Suganya Karthick M/O  
Jessica Sri K LKG - Ruby*

Parenting a child especially infants is so tough-. Children won't accept what we say and do, they wanted to be their own. if we're roud to them, they became arrogant. So be elegant to them and try to brief what will happen if they do. As we are all penetrating our wish to our children, its our first mistake which will turn their behavior as adamant. we all should think of our children life whether it would be healthy or unhealthy. If they want to be healthy pl. make their food habits with Nuts, Fruits, Millets Recipes, Tender Coconut, etc.,.....and allow them to play outdoor games and indoor games like carrom, chess etc.,.....instead of mobile gaming. As a working mother, I too had challenges before in growing a child. My Child was spending the first half of the day with me in office by using the mobile-( use to watch the videos in YouTube for 3-4Hours), I was unable to play with her when I was in office and I worry about my situation. By Eve, I used to play with her like Hide and seek, Elephant Ride, Frog Jump to divert her mind from Mobile, bought Velcro Sticker Books, Books, Toys,.....Afterwards i joined her to School even her age is 3Yrs to divert completely, now she is doing her Homework, playing with me, eats healthy foods but sometime Junk Foods.....

கல்வி நுண்ணறிவுகள்:  
இன்றைய நவீன தொழிற்நுட்பங்களால் நம்மை சுற்றி இருக்கும் ஒவ்வொரு பொருளும் ஏதோ ஒருவகையில் இன்னும் நம் வசதிக்கு தகுந்தாற்போல் மாறிக் கொண்டே வருகிறது.

கணினிகள் இல்லாத அலுவலகங்களையே இப்போது பார்க்க முடிவதில்லை. ஆராய்ச்சிகளும் அதை தொடர்ந்து கண்டுபிடிக்கப்படும் தொழில்நுட்பங்களில் நம் வசதி மட்டும் அல்லாமல் நம் திறனும் நாளுக்கு நாள் அதிகரித்து வருகிறது. அண்மைகாலமாக கல்வி மற்றும் பொழுதுபோக்கில் தொழில்நுட்பங்களின் தாக்கம் வெகுவாக அதிகரித்துள்ளது. தொழில்நுட்பத்தால் மனிதனின் செயல்திறனை அதிகரிப்பது மட்டும் அல்லாமல் மனிதனால் குறைந்த அளவு சிந்தித்து செய்யக்கூடிய பல இடங்களில் சிறு சிறு வேலைகளில் மனிதனுக்கு மாற்றாக வேலை செய்ய பயன்படுகிறது. 1943-ல் வாரன் மெச்சுல்லாச் மற்றும் வால்டேர் பிட்ஸ் உருவாக்கிய கட்டமைப்பே முதலாவது செயற்கை நுண்ணறிவு கட்டமைப்பு என ஏற்றுக் கொள்ளப்பட்டுள்ளது. இவர்கள் மனித மூளையில் இருக்கும் நியூரான்களை (மூளையின் செல்கள்) அடிப்படையாக வைத்து இந்தசெயற்கை நுண்ணறிவு கட்டமைப்பை உருவாக்கினர்.

## INTERNATIONAL DAY OF PEACE

*Poongodi V M M/O  
Subashini K VI B*

International Day of Peace is a day when people all around the world join hands to celebrate peace and unity. It reminds us that peace is vital for a happy life. Peace means being kind and friendly to others, solving problems without fighting, and working together for a better world. Let's be peacemakers in our families, schools, and communities by listening to each other, helping those in need, and respecting everyone, no matter where they come from. Together, we can create a world where everyone feels safe, loved, and valued.

## WINGS OF FIRE

Mrs. Praveena  
Maths Department

The book traces A.P.J. Abdul Kalam's journey from a humble background in Rameswaram, Tamilnadu, to becoming a pioneering aerospace scientist. Kalam recounts his childhood experiences, the strong influence of his parents, and his early fascination with flight. He describes his struggles and determination of the life to pursue education and his journey as a scientist at organisation like ISRO and DRDO. The book highlights his significant contribution to India's missile and space programs, including his pivotal role in the successful development of the Agni and Prithvi missiles.

"The most powerful thing in our life is thinking."

## TRAVEL

Mrs. Banumathy  
Social Science  
Department

Travelling is an amazing way to learn a lot of things in life. A lot of people around the world travel every year to many places. Moreover, it is important to travel to humans. Some travel to learn more while some travel to take a break from their life. No matter the reason, travelling opens a big door for us to explore the world beyond our imagination and indulge in many things.

## THE WOUNDED SWAN

Mrs. Deepika, Maths Department

Peace is a means of state of harmony, quiet or calm that is not disturbed by anything at all, like a still pond with no ripples. What do you think of when you hear the word peace? Is it having a world free from fight and war? Or just living your life and feeling calm all the time?

Understanding that real peace comes from within and not from what the environment of dictates is the first step to reaching a sense of peace. This story showing an act of kindness can mean promoting peace. Kindness makes the world a better place.

Prince Siddhartha was very kind to people and animals. Though prince, he was not proud. He always worked to make others happy. He grew up to become Gautam Buddha, the founder of Buddhism. This is one of the stories about his love for living beings.

One day, young Prince Siddhartha was walking in the forest with his cousin Devadatta. Devadatta was carrying bow and arrows. They saw three beautiful wild swans flying overhead.

Siddhartha: "Oh! How beautiful these swans are!"

Devadatta aiming an arrow at one of them: "Yes! I must get one of them!"

The arrow hit one of the swans, and it fell on the ground. Siddhartha: "Oh no! This is not right." He ran to the spot where the bird fell. He picked up the wounded bird gently and stroked it. An arrow was sticking out of its wing. Siddhartha: "Oh poor bird! Don't worry. I will take care of you." With great care, he took out the arrow. He then applied juice from crushed leaves and dressed the wound with the leaves. Just then, Devadatta came running.

Devadatta: "That's my swan! I shot it. Give it to me."

Siddhartha: "You can't have it! It's a wild swan. It doesn't belong to you."

Devadatta: "I shot it so it's mine."

Siddhartha: "You're right! But this swan isn't dead. If you had killed it, it would have been yours. But now, since it is only wounded but still alive, it belongs to me."

Devadatta: (shouting) "Give me my bird! I shot it down!"

The two boys began to argue. Siddhartha: "Stop! This isn't helping. Let us go to the court of the king and ask him who really owns the swan."

Devadatta agreed and both go to meet the king.

Siddhartha: "We've come to ask you to help us settle a disagreement." King: "Tell me what happened."

Both tell their side of the story. "... and I shot the swan, so it rightfully belongs to me!" (concluded Devadatta)  
Siddhartha: "...but I saved it. It is wounded but it is still alive."

King: "The one who saves life has a greater right over the one who kills."

Siddhartha has saved the life of this swan. Hence, it belongs to him."

"Kindness is the language which even animals understand."
